

Anti-Human CD16-165Ho

Catalog: 3165001B Package Size: 100 tests

Storage: Store product at 4°C. Do not freeze.

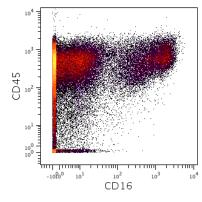

Reactivity: Cynomolgus Monkey, Rhesus, Chimpanzee, Olive Baboon, Pigtailed Macaque, Sooty Mangabey, Squirrel Monkey, Clone: 3G8 Isotype: IgG1

Formulation: Antibody stabilizer with 0.05% Sodium Azide

Technical Information

Validation: Each lot of conjugated antibody is quality control tested by $\mathsf{CyTOF}^{\textcircled{R}}$ analysis of stained cells using the appropriate positive and negative cell staining and/or activation controls.

Recommended Usage: The suggested use is 1 μ l for up to 3 X 10^6 live cells in 100 μ l. It is recommended that the antibody be titrated for optimal performance for each of the desired applications.

Human PBMCs stained with 154Sm-anti-CD45 (HI30) and 165Ho-anti-CD16 (3G8).

Description

CD16, also known as low affinity IgG receptor III (FcγRIII), is a polypeptide-anchored transmembrane protein. The CD16a isoform is expressed on the surface of NK cells, activated monocytes, macrophages, and placental trophoblasts. The CD16b isoform is expressed specifically on neutrophils. CD16a and CD16b are 95% homologous and both recognized by the antibody clone 3G8.
