

# Anti-Human CD36-155Gd

Catalog: 3155012B

Package Size: 100 tests

Storage: Store product at 4°C. Do not freeze.

Reactivity: Human

Clone: 5-271

Isotype: Mouse IgG2a

Formulation: Antibody stabilizer with 0.05% Sodium Azide

## Technical Information

**Validation:** Each lot of conjugated antibody is quality control tested by CyTOF<sup>®</sup> analysis of stained cells using the appropriate positive and negative cell staining and/or activation controls.

**Recommended Usage:** The suggested use is 1 µl for up to 3 X 10<sup>6</sup> live cells in 100 µl. It is recommended that the antibody be titrated for optimal performance for each of the desired applications.

Human PBMCs stained with 148Nd-anti-CD14 (RMO52) and 155Gd-anti-CD36 (5-271). Not T not B cells are displayed in the analysis.

## Description

CD36, also known as GPIIb or GPIV, is an integral membrane glycoprotein and member of the class B scavenger receptor family of cell surface proteins. It is expressed on the surface of various epithelial and endothelial cells, erythrocytes, platelets, macrophages/monocytes and some macrophage-derived dendritic cells.
